JAYSON TAN

I'm a recent IT graduate with hands-on experience in end-to-end project development across different fields.

I enjoy planning, designing, developing, and implementing projects, and I approach my work with sincerity and dedication.

With a strong sense of responsibility, I always strive to deliver quality results and contribute effectively to any team I'm part of.

WORK EXPERIENCE

About Me

Work Experience  

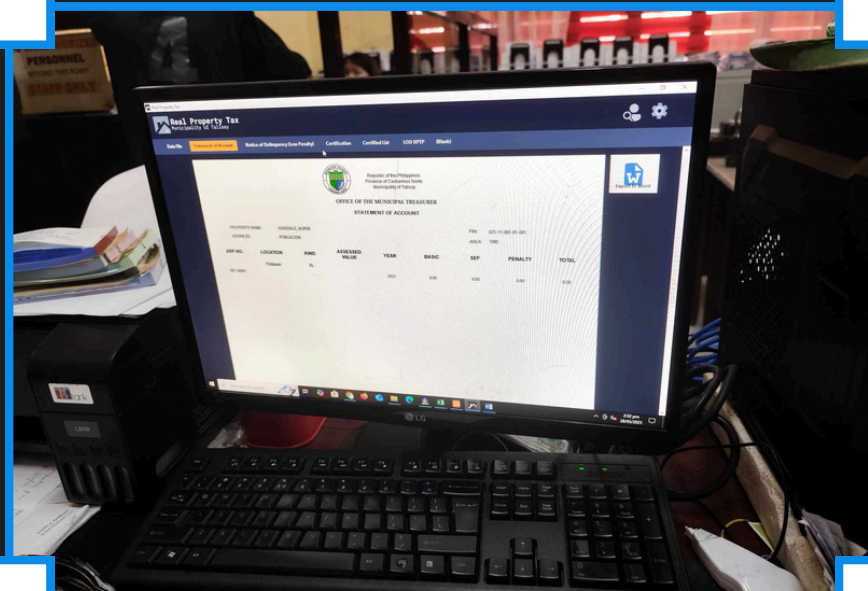

Projects

Contacts

I completed a 4-month Software Developer Internship at the Local Government Unit of Talisay, Camarines Norte (February to May 2025).

My key project involved developing a Real Property Tax System that streamlined tax calculations and automated report generation, enhancing accuracy and efficiency.

In addition, I provided technical support by assisting employees with troubleshooting and resolving computer-related issues.

PROJECTS PORTFOLIO

This portfolio presents a range of creative projects, including [UI mockups](#), [logo design](#), [illustrations](#), and [poster design](#).

Each piece demonstrates a balance of visual appeal and usability, reflecting my ability to design with both creativity and purpose.

UI Mockups

Illustration

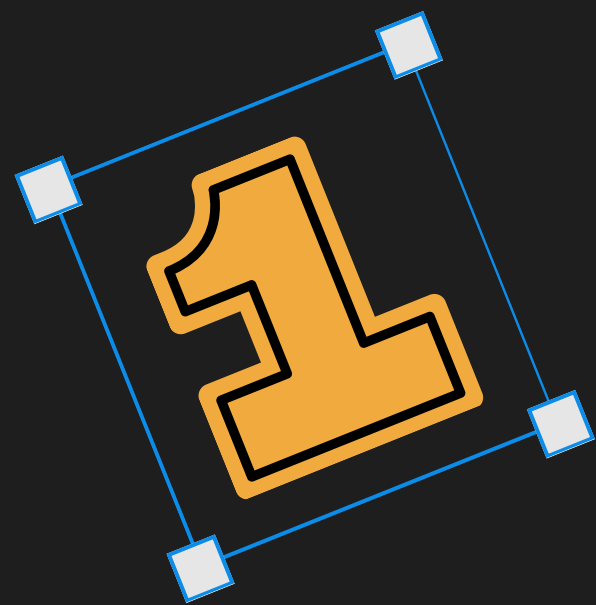

Poster

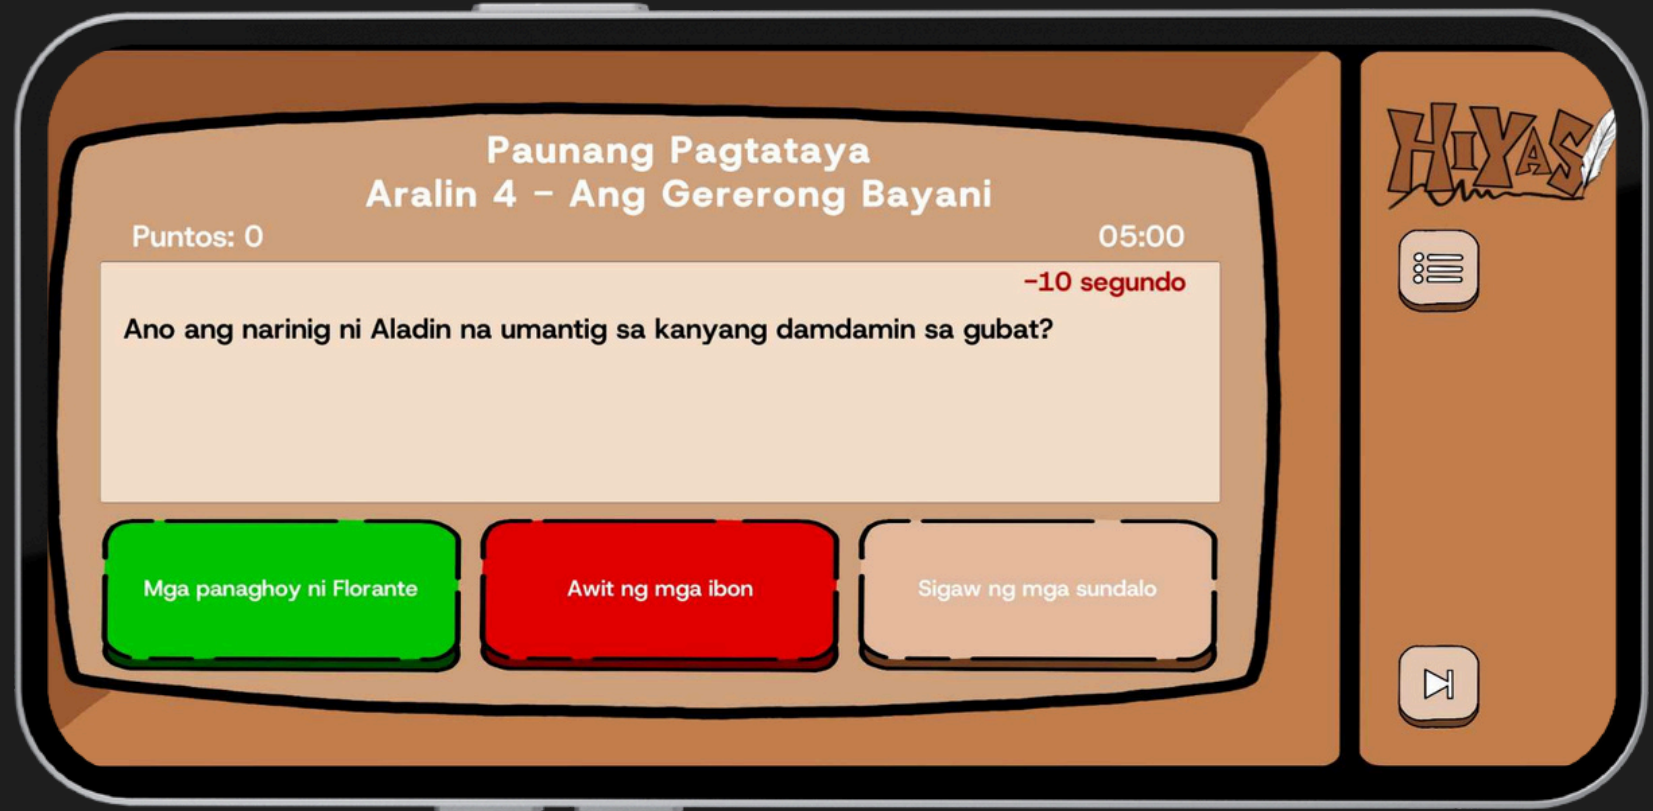

Logo Design

UI MOCKUPS

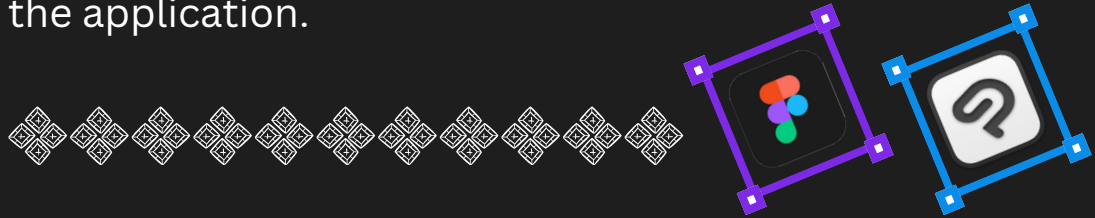

Hiyas is a mobile educational application designed as a storytelling platform for **Florante at Laura**, a classic piece of Filipino literature.

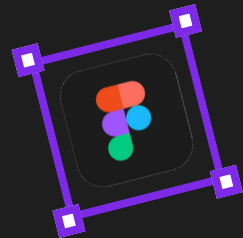

In this project, I was responsible for **planning and designing** the overall layout of the application, as well as **creating the visual assets**—including **illustrations, buttons, and other interface elements**—to ensure an engaging and user-friendly experience.

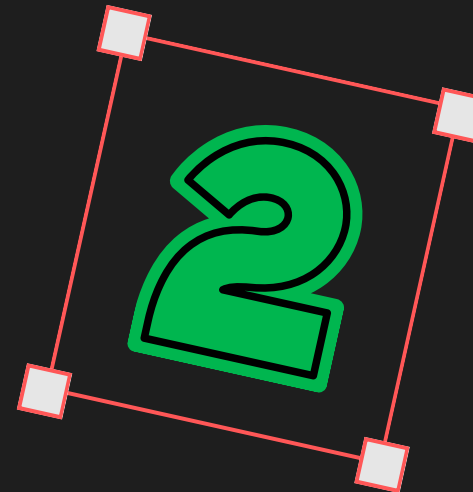

I **illustrated** each asset using **Clip Studio Paint**, ensuring that every page, button, and splash screen was **fully customized** to match the overall theme and aesthetic of the application.

UI MOCKUPS

Real Property Tax
Municipality of Talisay

This **Real Property Tax System** was a project I **co-developed** during my **internship**. One of my primary contribution focused on designing the complete **UX/UI flow** to ensure **usability** and **efficiency**.

The system automates tax calculations based on inputted data and generates comprehensive reports. The sample presented here highlights the two main sections of the system: **data processing** and **report generation**.

POSTERS

About Me

Work Experience

Projects  

Contacts

These are [sample designs of static ad posters](#) I created using [Canva](#). Each poster was designed with attention to [layout, typography, and visual balance](#) to ensure clear communication and strong visual impact. The designs highlight [my ability to create engaging marketing materials](#) that are both aesthetically appealing and effective in delivering the intended message.

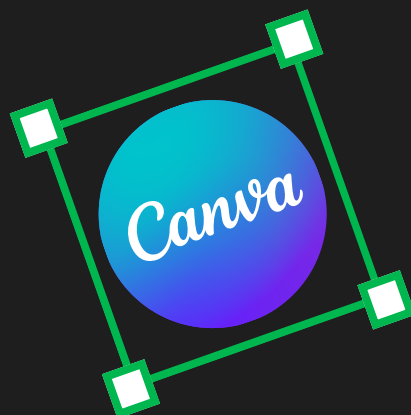

LOGO DESIGN

About Me

Work Experience

Projects  

Contacts

These are [logo designs I created for different purposes](#), each tailored to fit its unique context. One was developed as part of a [mobile application project](#), another was submitted for a [logo design contest](#), and the third was designed for an [internship project](#). Each logo reflects careful consideration of [visual identity, theme, and functionality](#), showcasing [my ability to adapt design concepts](#) to suit specific goals and audiences.
